

“

My journey has been full of peaks and valleys. Although lately situations have been so uncertain, I am so grateful.

I am raising a strong and independent daughter on my own. I am working my tail off and doing well in school. I am more tired than ever but also more fulfilled. I am so thankful to be thought of for this scholarship. Thank you for listening to my story and considering me.

To whoever is reading this, no matter what, I promise to always keep my chin up.”
