

“

I am continuing my education so that I can show my kids that regardless of what background you come from, there is always hope and there are always ways to better yourself.

School has always been important to me and I try and instill that into my children as well. I have recently graduated with my associate degree (after 14 years of trying).

This has been a major accomplishment for me and since I have started, I want to continue on and get my bachelor's degree.”
